

2020 EQUIPMENT SPECIALIST

FLOAT
N' FLAG
DIVE CENTRE

Jan 21st & 28th | May 7th & 12th | Sept 15th & 17th | Nov 12th & 19th

Don't miss a dive due to a scuba gear issue. Whether it's a blown o-ring, regulator problem, wetsuit tear or a broken fin strap, you can learn how to manage basic scuba equipment adjustments.

As a PADI Equipment Specialist, you are prepared for the basic scuba equipment maintenance, care and adjustments you'll encounter every day. In addition, you'll learn interesting background information about how your gear is made, how it works, how it's repaired and other information that helps you with your equipment investment.

The Fun Part

The more you know about how your dive gear works, the more

- Comfortable you are with it
- Performance you'll get from it
- You can care for it properly

What You Learn

- Review the theory, principles and operation of scuba diving equipment
- Learn about routine, recommended care and maintenance procedures, and equipment storage
- How to overcome common problems with equipment and recommended professional maintenance procedures (may include a demonstration of service or repair procedures)
- Gain simple suggestions for comfortable equipment configurations and an introduction to new gear

Prerequisites: Open Water or Junior Open Water Certification

Cost: \$150 (there is no required manual for this course)

Recommended Materials: Encyclopedia of Recreational Diving - Book = \$99, Digital = \$159

Schedule:

Session #1 @ 6:00pm: Classroom at Float N' Flag Dive Centre

Session #2 @ 6:00pm: Service Lab at Float N' Flag Dive Centre
