DIVE CENTRE

Move up and experience real adventure with the PADI Advanced Open Water Diver course. As you step beyond the PADI Open Water Diver level, you make five dives and have the opportunity to try some of diving's most rewarding and useful specialty activities, such as navigation, night diving, deep diving, DSMB use and drift diving. These skills make diving much more than underwater sightseeing. Plus, the Advanced Open Water Diver course takes you one step closer to Master Scuba Diver – the highest certification level in recreational diving.

With your PADI Instructor, you'll complete the 5 Adventure Dives. These dives boost your confidence as you build these foundational skills. Each Adventure Dive in the PADI Advanced Open Water Diver course may also credit toward the first dive of the corresponding PADI Specialty Diver course (ie: Deep, Night, Drift, etc.)

Required Equipment List: In addition to the PADI Advance OW Diver e-Learning, you'll need all of your basic Scuba gear including: mask, snorkel and fins/boots. You'll also need your AOW Planning Slate, whistle & SMB (included in your e-Learning crew pack) and 1 primary dive light. A dive knife or cutting tool is also required. A tank light is also recommended. You'll also need a computer, either your own or you may rent one from us. Several specials are available at FNF to you as an AOW student at the shop.

Note: While we encourage you to start looking at buying your own gear, key **gear included in the course price** is an exposure suit, weights, regulator (with SPG & alternate air source), BCD, compass, tanks and ALL air fills for the course dives.
