

# 2024 WRECK DIVER

Sept 9<sup>th</sup> Class, Sept 11<sup>th</sup> Skills Dive, Sept 14<sup>th</sup> & 15<sup>th</sup> Wreck Dives

You drop down and pass through a window into the past. As you near the bottom, a recognizable shape begins to form. First, you see a straight line, then a round window. Next, a ship materializes in front of you. As you look at the wreck, history shows itself.

Whether sunk intentionally or tragically, a shipwreck, a plane or an automobile, the call of wrecks is nearly irresistible to divers. Through the PADI Wreck Diver Specialty course, you get the skills, knowledge and procedures you need to answer the call of wreck diving.

- Certification counts towards the PADI Master Scuba Diver rating. The underwater world needs heroes. Be one. Learn how to conserve the historic aquatic environment & wrecks
