STANDARD SAFE DIVING PRACTICES STATEMENT OF UNDERSTANDING

This is a statement in which you are informed of the established safe diving practices for skin and scuba diving. These practices have been compiled for your review and acknowledgement and are intended to increase your comfort and safety in diving. Your signature on this statement is required as proof that you are aware of these safe diving practices. Read and discuss the statement prior to

I,	understand that as a diver I should:
	(Print Name)
l.	Maintain good mental and physical fitness for diving. Avoid being under the influence of alcohol or dangerous drugs when diving. Keep proficient in diving skills, striving to increase them through continuing education and reviewing them in controlled conditions after a period of diving inactivity, and refer to my course materials to stay current and refresh myself on important information.
2	Be familiar with my dive sites. If not, obtain a formal diving orientation from a knowledgeable, local source. If diving conditions are worse than those in which I am experienced, postpone diving or select an alternate site with better conditions. Engage only in diving activities consistent with my training and experience. Do not engage in cave or technical diving unless specifically trained to do so.
3.	Use complete, well-maintained, reliable equipment with which I am familiar; and inspect it for correct fit and function prior to each dive Have a buoyancy control device, Low Pressure buoyancy control inflation system, submersible pressure gauge and alternate air source and dive planning/monitoring device (dive computer, RDP/dive tables - whichever you are trained to use) when scuba diving. Deny use of my equipment to uncertified divers.
1.	Listen carefully to dive briefings and directions and respect the advice of those supervising my diving activities. Recognize that additional training is recommended for participation in specialty diving activities, in other geographic areas and after periods of inactivity that exceed six months.
5.	Adhere to the buddy system throughout every dive. Plan dives — including communications, procedures for reuniting in case of separation, and emergency procedures — with my buddy.
3 .	Be proficient in dive planning (dive computer or dive table use). Make all dives no-decompression dives and allow a margin of safety. Have a means to monitor depth and time underwater. Limit maximum depth to my level of training and experience. Ascend at a rate of not more than 18 metres/60 feet per minute. Be a SAFE diver - Slowly Ascend From Every Dive). Make a safety stop as an added precaution, usually at 5 metres/15 feet for three minutes or longer.
7.	Maintain proper buoyancy. Adjust weighting at the surface for neutral buoyancy with no air in my buoyancy control device. Maintain neutral buoyancy while underwater. Be buoyant for surface swimming and resting. Have weights clear for easy removal, and establish buoyancy when in distress while diving. Carry at least one surface signaing device (such as signal tube, whistle mirror).
8.	Breathe properly for diving. Never breath-hold or skip-breathe when breathing compressed air, and avoid excessive hyperventilation when breath-hold diving. Avoid overexertion while in and under water and dive within my limitations.
9.	Use a boat, float, or other surface support station whenever feasible.
10.	Know and obey local diving laws and regulations, including fish-and-game and dive-flag laws.
	nderstand the importance and purposes of these established practices. I recognize they are for my own safety and well being, and at failure to adhere to them can place me in jeopardy when diving.

Diver Medical | Participant Questionnaire

Recreational scuba diving and freediving requires good physical and mental health. There are a few medical conditions which can be hazardous while diving, listed below. Those who have, or are predisposed to, any of these conditions, should be evaluated by a physician. This Diver Medical Participant Questionnaire provides a basis to determine if you should seek out that evaluation. If you have any concerns about your diving fitness not represented on this form, consult with your physician before diving. If you are feeling ill, avoid diving. If you think you may have a contagious disease, protect yourself and others by not participating in dive training and/or dive activities. References to "diving" on this form encompass both recreational scuba diving and freediving. This form is principally designed as an initial medical screen for new divers, but is also appropriate for divers taking continuing education. For your safety, and that of others who may dive with you, answer all questions honestly.

Directions

Complete this questionnaire as a prerequisite to a recreational scuba diving or freediving course.

Note to women: If you are pregnant, or attempting to become pregnant, do not dive.

Please read carefully and fill in all blanks before signing.

Non-Agency Disclosure and Acknowledgment Agreement

I understand and agree that PADI members ("Members"), including FLOAT N' FLAG SPORT & DIVE INC. and/or any individual PADI Instructors and Divemasters associated with the program in which I am participating, are licensed to use various PADI Trademarks and to conduct PADI training, but are not agents, employees or franchisees of PADI Americas, Inc. or its parent, subsiduary and affiliated and that while PADI establishes the standards for PADI diver training programs, it is not responsible for, nor does it have the right to control, the operation of the Members' business activities and the day-to-day conduct of PADI programs and supervision of divers by the Members or their associated staff. I further understand and agree on behalf of myself, my heirs and my estate that in the event of an injury or death during this activity, neither I nor my estate shall seek to hold PADI liable for the actions, inactions or negligence of FLOAT N' FLAG SPORT & DIVE

corporations ("PADI"). I further understand that member business activities are independent, and are neither owned nor operated by PADI, INC., and/or the instructors and divemasters associated with the activity. **Liability Release and Assumption of Risk Agreement** , hereby affirm that I am aware that skin and scuba diving have inherent risks which may result in serious injury or death. I understand that diving with compressed air involves certain inherent risks; decompression sickness, embolism or other hyperbaric injury can occur that require treatment in a recompression chamber. I further understand that this program may be conducted at a site that is remote, either by time or distance, from such a recompression chamber. I still choose to proceed with this program in spite of the absence of a recompression chamber or medical facility in proximity to the dive site. I understand and agree that neither my instructors, the professional staff at Float N' Flag Sport & Dive Inc., conducting this program, nor the facility through which is offered, FLOAT N' FLAG SPORT & DIVE INC., nor PADI Americas, Inc., nor its affiliate or subsidiary corporations, nor any of their respective employees, officers, agents, contractors or assigns (hereinafter referred to as "Released Parties") may be held liable or responsible in any way for any injury, death or other damages to me, my family, estate, heirs or assigns that may occur as a result of my participation in this diving program or as a result of the negligence of any party, including the Released Parties, whether passive or active. In consideration of being allowed to participate in this program, I hereby personally assume all risks for any harm, injury or damage, whether foreseen or unforeseen, that may befall me while participating in this program, including but not limited to the knowledge development, confined water and/or open water activities. I further release, exempt and hold harmless said program and the Released Parties, from any claim or lawsuit by me, my family, estate, heirs, or assigns, arising out of my enrollment and participation in this program including both claims arising during the program or after I receive my I also understand that skin diving and scuba diving are physically strenuous activities and that I will be exerting myself during this program, and that if I am injured as a result of a heart attack, panic, hyperventilation, drowning or any other cause, that I expressly assume the risk of said injuries and that I will not hold the Released Parties responsible for the same. I further state that I am of lawful age and legally competent to sign this liability release, or that I have acquired the written consent of my parent or guardian. I understand the terms herein are contractual and not a mere recital, and that I have signed this Agreement of my own free act and with the knowledge that I hereby agree to waive my legal rights. I further agree that if any provision of this Agreement is found to be unenforceable or invalid, that provision shall be severed from this Agreement. The remainder of this Agreement will then be construed as though the unenforceable provision had never been contained herein. I understand and agree that I am not only giving up my right to sue the Related Parties but also any rights of my heirs, assigns or beneficiaries may have to sue the Related Parties resulting from my death. I further represent that I have the authority to do so and that my heirs, assigns and beneficiaries will be stopped from claiming otherwise because of my representations to the Released Parties. _, by this instrument do exempt and release the dive professionals conducting this program, the facility through which the program is conducted, and PADI Americas, Inc. and all related entities and Released Parties as defined above from all liability or responsibility whatsoever for personal injury, property damage or wrongful death, however caused, including, but not limited to, the negligence of the released parties, whether passive or active. I HAVE FULLY INFORMED MYSELF OF THE CONTENTS OF THIS LIABILITY RELEASE AND ASSUMPTION OF RISK AGREEMENT AND NON-AGENCY DISCLOSURE ACKNOWLEDGMENT AGREEMENT BY READING BOTH BEFORE SIGNING BELOW ON BEHALF OF MYSELF AND MY HEIRS AND AFFIRM THE MEDICAL QUESTIONNAIRE IS ACCURATE.

Date (Day/Month/Year)

FNF Course Cancellation & Schedule Change Policy

Course Fees are NON-REFUNDABLE.

Within 2 weeks notice, a paid student may notify FLOAT N' FLAG DIVE CENTRE of their intention to move the date they wish to take the course, with **no penalty**, as long as the new date falls within 12 months or the original sign-up date. After 12 months, if the course is not rescheduled, the course fee is considered forfeit by the customer to cover administrative and other costs (unless agreed to in writing by management for special circumstances).

If **7-14 days notice** is provided to move from one class session to another, a **\$75.00 administration fee** will apply and must be paid in full before the new class registration is formalized. Float N' Flag cannot guarantee that the desired class is available or that the student can move to the desired class. The availability of space in new classes depends on the size of the new class and the instructor to student ratios.

If less than 7 days notice is provided to Float N' Flag, or if a student does not show up for their course, staff and pool commitments have already been made and the course portion of the fee is forfeit by the customer to cover these and other administrative costs and must be paid again when re-booking additional dates. The availability of space in new classes depends on the size of the new class and the instructor to student ratios.
