Jan 25th

Feb 22nd

Mar 22nd

Apr 26th

May 24th

Private Sessions can be booked also. Please contact the store for details and scheduling.

ReActivate Your Skills

Haven't been in the water in a little while? If you are going away or just want to get back into diving, then we have a "refresher" program to make it easy to get back in the water. We focus on safety and skill development so your re-engagement into diving is awesome!

With the ReActivate program, not only do you get to refresh your skills with an online theory review and a pool session, but you will also receive a new "ReActivated" e-card. Operators and Resorts will be looking for you to have completed this program if you've been out of the water more than 6-12 months. If it's been more than 10 years, we recommend you hop into the OW class again. Pop into the store to register for the course or register and pay online by visiting <https://floatnflag.com/reactivate-scuba-refresher/>

1. **Knowledge Development** – As outlined above, this develops your familiarity with basic principles and procedures using realistic dive scenarios. The online learning will move on when you understand the material, or provide additional information if you weren't quite right. This should be completed before your pool session.

2. **Confined Water Portion** – You will review and practice all the main scuba skills in the pool, refreshing how to set up your gear, practice emergency skills, tweak your buoyancy skills and perform other basics to ensure your comfort and safety when you go diving. You'll also have time to work on additional skills you want to practice. Just let your Instructor know your goals. All required learning materials are available online. Students must have their own mask, snorkel, fins and boots.

Materials:

Cost: The ReActivate Online e-learning module (included with your assigned PADI CLUB membership) is \$65. Your in-water session, which includes a tank and weights, is \$100. Gear rental (BCD & regulator), if required, is an additional \$45. Tax extra. Your PADI Club membership has other great benefits, like 20% off additional e-learning course codes, so be sure to explore those further once your membership is activated.

Note: Must be booked and paperwork completed a minimum one week in advance. Rental equipment (as needed) can be picked-up the Friday or Saturday before the Sunday pool session. The PADI online course pricing may change without notice.

Pre-requisites: To enroll in the PADI ReActivate program, you must be 10 years or older with a minimum Open Water Diver Certification from PADI or a qualified certification agency. A simple medical form and paperwork must also be completed to ensure your safety while diving.

Schedule

e-Learning: The online module should be completed before the pool session. We receive notification of your successful completion automatically. This must be received before we can process your ReActivate certification.

Pool: Sunday : Arrival @ 8:15am - 12:45pm (Wayne Gretzky Pool) or as specified at time of registration.
