

EQUIPMENT SPECIALIST

**FLOAT
N' FLAG**
DIVE CENTRE

Feb 11th | Mar 19th | May 13th | Sept 2nd | Oct 14th | Nov 25th

Don't miss a dive due to a scuba gear issue. Whether it's a blown o-ring, regulator problem, wetsuit tear or a broken fin strap, you can learn how to manage basic scuba equipment adjustments.

As a PADI Equipment Specialist, you are prepared for the basic scuba equipment maintenance, care and adjustments you'll encounter every day. In addition, you'll learn interesting background information about how your gear is made, how it works, how it's repaired and other information that helps you with your equipment investment.

The Fun Part:

The more you know about how your dive gear works, the more

- Comfortable you are with it
- Performance you'll get from it
- You can care for it properly

What You Will Learn:

- Review the theory, principles and operation of scuba diving equipment
- Learn about routine, recommended care and maintenance procedures, and equipment storage
- How to overcome common problems with equipment and recommended professional maintenance procedures (may include a demonstration of service or repair procedures)
- Gain simple suggestions for comfortable equipment configurations and an introduction to new gear
- Hands on experience by spending a night in our service lab learning about visuals & hydros, tank valves, the insides of your 1st & 2nd Stages, key Save-A-Dive Kit elements and much more.

Prerequisites: Open Water or Junior Open Water Certification

Cost: Course fee is \$150 + e-learning (\$79). Tax extra.

Recommended Materials: Encyclopedia of Recreational Diving - Book = \$123, Digital = \$233

Schedule:

Session #1 @ 6:00pm: Service Lab at Float N' Flag Dive Centre
